Book Concept: Adivinanzas Mexicanas para Niños: Un Viaje Mágico

Logline: Embark on a vibrant journey through Mexico's rich culture and language as you solve enchanting riddles, unlocking the secrets of its fascinating flora, fauna, and traditions.

Storyline/Structure:

The book will be structured as an interactive adventure. Instead of simply presenting riddles one after another, each riddle will be woven into a larger narrative. The story follows three children—Sofia, Miguel, and Lucia—who receive a mysterious map leading them on a quest across Mexico. Each location on the map presents a new riddle, based on a specific aspect of Mexican culture. Solving the riddle unlocks a new clue, leading them closer to a final treasure (perhaps a hidden piece of art, a historical artifact, or a traditional Mexican fiesta). Illustrations will be vibrant and culturally accurate, bringing the settings and characters to life. The riddles themselves will increase in difficulty as the story progresses.
