Chapter 2: Mastering Color Theory: Bringing Fashion to Life with Color

Color theory is the foundation of any successful art project. This chapter provides a foundational understanding of color, exploring topics such as the color wheel, primary, secondary, and tertiary colors, and how they interact. You'll learn about complementary colors (colors opposite each other on the wheel), analogous colors (colors next to each other), and how to create harmony and visual interest. Understanding color value (lightness and darkness) and saturation (intensity of color) is crucial for creating depth and dimension in your fashion illustrations. Techniques such as shading and highlighting are explored, allowing you to add realistic shadows and light reflections to your designs, bringing your coloring to life.
