The early years of Alpha Xi Delta were characterized by a spirit of innovation and idealism. The songs composed during this period often reflected a sense of purpose and a focus on establishing the sorority's identity within the broader college landscape. Analyzing these early songs helps us understand the values and aspirations of the founding members. The simple harmonies and lyrical themes often centered around friendship, scholarship, and the ideals of sisterhood. Studying the original sheet music and exploring any surviving accounts of their performance at early chapter meetings offers invaluable insight into the atmosphere of these formative years. The 1920s and beyond witnessed significant social and cultural shifts that profoundly impacted Alpha Xi Delta. The songs from this era reveal how the sorority adapted to evolving societal norms while

maintaining its core values. The transition from the more restrained melodies of the early years to potentially more upbeat and jazzy compositions reflects the changing musical landscape. This section would explore how these changes in musical style mirrored changes in the sorority's activities and membership. We examine any changes to existing songs, the addition of new songs, and the evolution of the rituals and ceremonies that accompanied them. This exploration delves into the role of songs in maintaining continuity while adapting to the changing tides of time.
