## **Introduction: Understanding God's Will for Your Health – The Foundation of Wommack's Teachings on Divine Healing**

Andrew Wommack's teachings on divine healing stem from a core belief: God desires His children to be completely well – body, soul, and spirit. This isn't a mere suggestion or a possibility contingent upon our efforts, but a divine mandate rooted in the character and nature of God. He doesn't delight in sickness or suffering; rather, His will is for us to experience the fullness of life, a life characterized by abundant health and wholeness. This understanding forms the bedrock of his ministry, shaping his approach to healing and impacting countless lives. Wommack argues that healing is not simply a "bonus" for the faithful, but an integral part of God's redemptive plan for humanity.
