Keywords: Mexican War of Independence, Viceroyalty of New Spain, Spanish Colonial Rule, Hidalgo's rebellion, Morelos' leadership

The Mexican War of Independence (1810-1821) was a complex and multifaceted struggle. Decades of simmering discontent against Spanish colonial rule, fueled by economic exploitation, social inequality, and growing enlightenment ideals, culminated in the Grito de Dolores in 1810. Miguel Hidalgo y Costilla's call to arms ignited a rebellion that, while initially successful in some regions, faced formidable challenges. The early years saw a series of victories and defeats, with insurgent forces led by various figures, including José María Morelos y Pavón, who emerged as a key leader after Hidalgo's execution. Morelos's strategic brilliance and organizational skills proved crucial in consolidating the rebellion and laying the groundwork for a more structured revolutionary movement. Before the Congress of Apatzingán, the revolution lacked a unified vision and a clear political program. The need for a formally constituted government became increasingly apparent as the struggle progressed. Understanding this chaotic and dynamic pre-Congress era is crucial to appreciating the significance of Apatzingán.
