Shadows Before the Walls: A Deep Dive into the Pre-Catastrophe Era of Attack on Titan

Introduction: A False Sense of Security

The world within the walls enjoys a precarious peace. Generations have grown up knowing only the confines of their three-layered protection, the colossal walls Maria, Rose, and Sina shielding them from the horrors beyond. This introduction establishes the seemingly idyllic existence, a stark contrast to the brutality that will soon follow. We meet our key characters: a young Garrison recruit, Elara, brimming with naive idealism; a seasoned veteran of the Scouting Legion, scarred but resolute, named Captain Theron; and a resourceful merchant, Elias, struggling to maintain his family's livelihood amidst rising tensions. The introduction paints a picture of a society complacent in its perceived safety, unaware of the lurking threat. The idyllic facade is punctuated by whispers of ancient legends – tales of the Titans, their origins, and the true history of the walls, hinting at a darker past that has been conveniently forgotten.
