The Lego Batman Movie's Batgirl is a unique interpretation. While sharing core personality traits with her comic book counterpart – intelligence, agility, and a strong moral compass – the Lego version possesses a distinct playful energy. Her design, a sleek, modernized take on the classic Batgirl costume, reflects this personality. A key element to analyze is her role within the film's narrative, primarily as a foil to Batman's gruff, solitary nature, while simultaneously contributing her own unique skills and problem-solving approaches.
