H2: Chapter 1: Coastal Rainforests – Emerald Aviaries

The Pacific Northwest's coastal rainforests are a symphony of life, teeming with a unique assemblage of avian species adapted to a climate of high rainfall and lush vegetation. This chapter delves into the fascinating lives of birds like the Varied Thrush, its iridescent plumage a splash of color against the green backdrop. We'll explore the Northern Spotted Owl, a symbol of the old-growth forests, and discuss the challenges it faces due to habitat loss.
